BEST INCLUSION PROGRAMME OF THE YEAR 2020

Winner

New Directions, Bournemouth Churches Housing Association

Overview of entry

New Directions is an exciting new fully-funded programme being delivered by BCHA, in partnership with Dorset Engineering and Manufacturing Cluster (Dorset EMC) and sponsored by JP Morgan. Many of the clients that they support are the furthest away from the labour market, that face long term unemployment and social exclusion. New Directions provide a free, 12-week programme to increase people's confidence, motivation and support them into employment. They provide the participants with two accredited qualifications, introduce them to engineering employers within the DEMC, gain basic CAD skills at Barclay's eagle labs, attend work trials and mock interview preparation with their project sponsors JP Morgan.
